POSARM ORGANIZATIONS URGED
TO IMPROVE WORK

CALLS FOR IMPROVED OPERATIONS -- Sovetskaya Latvija, No 153, 1 Jul 49

The Latvian ICARM now has several tens of thousands of members. It propagates military science, trains groups of military defense specialists, and trains agricultural machine operators, drivers, and radio operators. The Riga and Daugavpils organizations are among the best DOSARM city groups and Yelgava, Telavi, Valmiera, and Daugavpils uyezds have the best uyezd organizations.

The Ventapils, Gulben, Limbazi, and Riga uyezd DOSARM organizations, however, have very few members and are doing unsatisfactory organizational work. Now that the organizational phase of operations has been completed, the main tasks of the Latvian DOSARM are to strengthen mass-political work, increase DOSARM activities, and to devote particular attention to strengthening and establishing new DOSARM organizations in kolkhozes. In this connection, city committees should render great aid.

Thanks to the establishment of study groups, DOSARM has become a permanent mass organization in the Lepaya Cork Linoleum Plant, the "Rigas audiman" Factory, and the Kandava Agricultural Mechanization Technical School. However, primary organizations in the car-building plant, the "VEF" Plant, and the "Krasny kvadrat" Plant are not satisfactory and have grown extremely slowly. The conduct of the Republic Shooting Sport Club must also be considered unsatisfactory. -- A. Yurevits, chairman, Republic DOSARM Committee, Latvian SSR.

RYAZAN' DOSARM MEETS -- Stalinskoye Znamya, No 99, 22 May 49

The first Ryazan' City Conference concluded several days ago after discussing the outcome of the organization period since June 1948. During this period, Ryazan' enterprises and educational institutions created 160 DOSARM primary organizations. These trained more than 700 Voroshilov rifle-men and around 3,600 different marksmen.
